Biodiesel Magazine's 2022 U.S. & Canada Biodiesel Plant Map identifies approximately 150 existing biodiesel plants as well as those under construction. Production facilities are conveniently color-coded by status for quick reference. Listings include plant name, city, state, size (installed capacity in millions of gallons per year, MMgy, for U.S. plants, and millions of liters per year, MMLy, for Canadian plants), and feedstocks used—whether it's soy or other virgin oils, waste vegetable oils, animal fats, trap grease, multifeedstock and more. Plus, the map will include charts/graphs illustrating key items extracted from the data.
